Haley Marketing Career Portal Overview

Haley Marketing Group's Career Portal is a hosted solution that allows Ceipal users to easily post details of job opportunities to their corporate websites and manage candidate applications from within Ceipal.

Key features of Haley Marketing's Career Portal include:

- Search Engine Optimization for each individual job opportunity, including optimization of URL, page title and meta descriptions based on job title and geographic location.
- Robust social media integration allowing jobs to be shared on Facebook, LinkedIn, Twitter, Google+ and via email.
- Ability to send jobs to job aggregators like ZipRecruiter, CareerJet and PostJobFree.com.
- RSS feeds of jobs by category or any search results.
- Mobile-optimized interface specifically designed for job seekers using smartphones.
- Keyword and proximity-based searching.
- Intelligent job alerts to automatically notify candidates of new opportunities.
- Automated and on-demand email marketing of job openings to encourage referrals and reactivation.

Ceipal Integration Overview

The Haley Marketing Group Career Portal integration with Ceipal uses Ceipal’s API to pass data between the Career Portal and Ceipal. Jobs are pulled from Ceipal hourly and are posted to the Career Portal. Candidates can search for jobs and then apply. By default, candidate information is passed back into Ceipal via the API, or a client may choose to disable this feature.

Getting Started

Before implementing the Ceipal API integration with the Haley Marketing Group Career Portal, a Career Portal must be setup. The setup process includes creating a sub domain for the Career Portal (e.g., jobs.yourstaffingcompany.com) pointed to the IP address provided by Haley Marketing Group, creating a template for the Career Portal that will match or compliment the current website, and linking the Career Portal to the website. Your Haley Marketing Group Project Manager will assist with all of these steps.

Setting up the Ceipal API Integration

In order to set up the Haley Marketing Group Career Portal with the Ceipal API, you will need to provide the following information to Haley Marketing Group:

Ceipal API Credentials

Ceipal API Credentials	
API ID:	
API User Email:	
API Password:	

Once your project manager has this information, the integration will be configured and job data will begin to flow into the Career Portal. At this time, it is recommended that you perform a complete run-through of the candidate experience so you are familiar with the process.

If you have any questions from this point forward, please contact your project manager or Haley Marketing Success team via <http://helpme.haleymarketing.com>.

Posting Jobs to the Career Portal

All jobs marked as Job Status: “Active” and tagged to publish in Ceipal will be published to the Haley Marketing Career Portal on your website. Jobs are posted, updated and removed hourly, around the clock.

	repmail		Primary Recruiter
	featured	not supported	not supported

Candidate Entry into Ceipal

When a candidate comes to the Haley Marketing Group Career Portal on your website, he or she will search through the jobs and may choose to apply. The application process follows:

1. The candidate will complete the application and submit the form.

Name*

<input type="text"/>	<input type="text"/>
First	Last

Email*

Phone*

Upload Resume

No file selected.

Please submit your resume in either Microsoft Word or PDF format. (1MB max)

2. The Haley Marketing Career Portal queries Ceipal to see if the applicant's email address exists in any Ceipal candidate record.

If a match is not found, a new record will be created, and a submission is added to the under the job posting. An application notification is sent to the primary recruiter. If a resume is uploaded during the application process, it is added to the candidate record.

Field Mapping into Candidate Records

Haley Application fieldname	Ceipal fieldname

Zip Code	Not supported
Cover letter	Not supported (data goes into myHaley/notification only)
Resume	Documents
Category ("Types of Jobs")	Not supported (data goes into myHaley/notification only)
Referral source	Source

Application/Registration FAQ

What happens when a candidate submits an application?

A record is created in Ceipal. An application notification is sent to the Primary Recruiter assigned to the job in Ceipal.

What happens when a candidate registers or signs up on the Career Portal, or submits the Quick Apply form (Skip the Search)?

Nothing is sent to Ceipal. A candidate signup or application notification is sent to the default Career Portal owner.

Do I have to have candidates entered into Ceipal?

You may request that the entry of candidate data into Ceipal be disabled; If this is requested, you will continue to receive application notifications, but no data will be passed via the API into Ceipal.

Candidate Account Management

A candidate may return to the Haley Marketing Group Career Portal at any time and login using his email and password. If the candidate does not know his password, he can ask for it to be emailed.

After logging in to the Haley Marketing Career Portal, the candidate can update his address information, permission to email and password. The updated information is not updated in Ceipal. Subsequent applications will be added to the candidate record.

Customizing the Haley Marketing Group Career Portal

You will notice that there are several areas of the Career Portal that can be customized to meet your company's individual needs. For example, you may change field labels, you may turn on or off proximity search, etc.

For details about customizing your Career Portal, please refer to the Help Center:
